

Ways to access services

- Fill out a referral form at www.cdcyukon.ca/referral
- Call 867-456-8182
- Email info@cdcukon.ca

We aim to contact you within 2 weeks of a referral to schedule a first visit.

Questions about your child's development?

Some of the services we offer:

- **Therapy** - for example, physiotherapy if your child needs support crawling or walking, or speech-language therapy if they need help talking, understanding language or communicating with others.
- **Ideas and activities** to try at home with your child.
- **Visits to child care programs** to collaborate with child care educators to support your child.
- **Developmental assessments** to look at milestones based on your child's age.
- **Diagnostic services** - for Autism Spectrum Disorder, Complex Behaviour and Fetal Alcohol Spectrum Disorder.
- **Follow Along Program** - we meet with you and your child a few times each year to answer questions, and look at milestones through play.

Child Development Centre

Free & confidential services.
A non-governmental organization.

Child Development Centre

Contact us. We can help.

We provide services to support children's development from birth to kindergarten.

We help answer your questions and provide therapeutic support in areas such as: movement, speech/communication, social-emotional, behaviour, sleeping, eating, toileting and sensitivities (to sound or touch).

Our services are available to all Yukon children. You can contact us with questions - big or small - about your child's development. All of our services are provided for free.

We travel to all Yukon communities.

Some reasons to contact us:

If you are curious about your child's development, or if your child:

- is not making or responding to sounds during the first year
- has fewer than 20 words at 18 months of age
- has a hard time playing with other children
- gets upset with minor changes to their routine
- has difficulty paying attention or understanding directions
- is not crawling by 12 months
- is very sensitive to touch, sounds, movement or smells

If you just aren't sure about something – contact us!

What does it look like to receive services?

The type of services and number of sessions will depend on your child's needs and what works for you. Visits are typically about 45 minutes long and are fun and play-based. We can meet at our centre, your home, or another location that works for you.
